CAUSE OF AN ITALIAN WOMAN'S SUICIDE.

A PHYSICIAN DID NOT BELIEVE SHE HAD TAKEN FOISON—ACTION OF THE CORONER.

Rear rooms on the third floor of the tenementhouse No. 281 Mulberry-st, have been occupied by Nardo Madzi, an Italian who is employed in the billard rooms of biseman & Schneider, in the Bowery. He sat in one of the rooms yesterday, overwhelmed with grief at the lozy of his wife and little son. Candles were burning on a small coffin in which the child's body lay, and on a bed in the same room was the body of Mrs. Rosa Madzi. Several Italian women were gathered about the bed, chanting hymus and offering words of sympathy. The child, Rocco Madzi, two years of age, died on Wednesday night after a brief illness. Dr. Sherman, of No. 367 Broome-st., had found the boy in convulsions and had prescribed some medicine. Madzi was absent from the house, procuring the medicine, when little Rocco died. Mrs. Madzi was absent from the house, procuring the medicine, when little Rocco died. Mrs. Madzi was ill that night, but it was supposed that she only suffered from shock on eccount of the child's death. On Thursday merming she was worse, and when a box which had contained poison was found in her pocket she said that she had taken the poison. She admitted that she did not wish to live any longer because her son was doad.

Dr. 6. W. Hoimes, an associate of Dr. Sherman, was summoned and he prescribed some medicine for the woman, but persons in the house said that he expressed a doubt that she had taken any poison. In the evening Manzi went to call the physician again, but Dr. Holmes was still unwilling to believe that Mrs. Manzi had taken poison and he did not got to the house. The woman's condition was so alaraning at 1 a. m. yesterday that her husband again besought Dr. Holmes to attend her. Finally Manzi summoned Dr. Carnon, of No. 386 Broome-st, but when the latter, physician got to the house for the burnial of Rocco's body yesterday, but orders were countermanded and the bodies of the number and don'd probably will POISON-ACTION OF THE CORONER.

WHAT DR. NACLE AND GTHER THINK ABOUT IT—
AN UNDERTAKER'S OPINIONS.

The prospects are that there will be a sharp legal contest between the Newtown Health Board and the undertakers of this city and Brooklyn before the latter consent to pay the doalar for the actual threat burial permit which the authorities of the town demand. It is expected that the actual by some modertakers retusted the actual by some modertakers retusted that the actual by some being received as formerly. The Rev. Stephen Merrit is president of the Undertakers' Society of this city. He was not at his office vesterday when a reporter called, but one of his associates said:

"We think the requirement of the Newtown Health Board is unjust and Blegal, but I suppose we shall have to such that we require. The expense of the committee was held at the Hofman House on the actual three thr

Newtown cemeteries to the others. Do you believe it?"
"Ne, not at all. People that own lots in Mt. Oliver or Caivary will bury friends there, and no effort of any local health board will drive them to Woodhawn or treeenwood. No, the Newtown people are trying to get some compensation out of the cemeteries for the mid which the latter have taken and for which no tax is received. They are perfectly justified in moking such an effort, but the plan which they have adopted will cause the taxes which these rich corporations should pay to be paid by the poor people of this city and Brocklyn."
The Newtown theath Board has sent its official circular to the Health Departments of this city, Brocklyn and other places in this neighborhood, the various cemetery corporations and all the undertaken is and around New-York. Dr. Nugle, of the Bureau of Vital Statistics, declares the charge to be wholly illegal. to be wholly illegal.

EX-SHERIFF DAVIDSON'S DIFFICUATIES.

It has been no secret for some time that exSheriff Davidson was in financial trouble. When
Under Sheriff Joel O. Stevens was reheved of his
position about a year ago, and Aurua Arrons apnointed in his place, it was understood that Aurons
came in as the agent of some of Mr. Davidson's
creditors. Recen ly Martin B. Brown, the printer,
procured a judgment against Mr. Davidson and endeavored to get an order from a Supreme Court
Judge restraining the Controller from paying the
Sheriff's December bull against the city. This was
held to be unlawful, however. Some time before
that Mr. Davidson made an assignment of this
and other claims to Moses Mehrbach, one of his
sureties, to protect him for money advanced and
otherwise secure him against loss. Mr. Davidson's
bond was \$20,000 and his sureties were Moses Mehrbach and Anthony Miller, a saloon keeper.

While the Board of Estimate was considering the
final estimates for 1886, Sheriff Davidson but in a
claim for \$37,000, expended by him in defending
himself against an indictment in the Court of
General Sessions and against charges before the
Governor, growing out of the Roosevelt Committee's investigation. He was nequitted by the
Court and Governor Hill dismissed the charges.
The Aldormen authorized the payment of the
Sheriff's bill, and the Mavor vetoed the
resolution on the ground that the Aldermen had no authority. The Board of Estimate declined to make provision for the claim.

Controller Loew said yesterlay that the matter
had not come before him officially. When it does
ne cannot allow the bill. It will be necessary for
Mr. Pavidson to procure the certificate of the Chief
Justice of the Court of Appeals and the Corporation Counse! that the bill rendered is a just and
proper one. Then the matter can be brought before
the Board of Estimate for approv. I. Or Mr. Davidson may sue the city and recover judgment, and
then the bill can be paid from the prograent fund.
In any case, if the bill is to be paid this year, i EX-SHERIFF DAVIDSON'S DIFFICULTIES.

MR. WHITNEY CALLS FOR RESIGNATIONS.

Mayor Whitney took a decided step yesterday in outlining the policy of his administration of Brooklyn affairs. He cailed for the resignations of the Civil Service Commissioners who were appointed by Mayor Low. Two members of the Commission, E. M. Shepard and Charles J. Henry, both Democrats, resigned last year. The remaining members are Ethain Allen Doty, General William H. Brownell, A. A. Healy, E. F. Clyne, Isaac H. Cary, Dr. H. M. Lewis, Dr. J. F. Moore, J. H. Schumann and Colonel John Rueger. The Mayor has the right to modify the Civil Service regulations, but the changes must meet the approval of the State Civil Service Board. Two men whom he will probably appoint in the new Commission are Dr. Paul Kretzchmar and W. I. Preston. Mr. Whitney also has an Elections Commissioner and four scalers of weights and measures to appoint. He called the attention of Commissioner Fleeman yeaterday to the need of street-cleaning, which is practically suspended in freezing weather. MR. WHITNEY CALLS FOR RESIGNATIONS.

POLICE CAPTAINS WANT MORE PAY. POLICE CAPTAINS WANT MORE PAY.

Among politicians and members of the Police Department there has been some talk recently about a proposed bill for the relief of the pelice captains. The captains have declared that their positions entitled them to more than \$2,000 a year each. A movement to position the Legislature was worked up quietly, and it was said that a bill to mercase the salary to \$3,000 was prepared. Rumors reached the Police Board also that the captains were about to raise money to help carry the bill through the Legislature. A committee was selected to appear before the Commissioners and ask for their sanction of the proposed measure. Captains Killdes, Clinchy and Gunner were present

at a meeting of the Board yesterday and said that they had come to see if the B-ard would entertain a petition for an increase of pay. The Commissioners did not look with favor on the proposed movement, while they conceded that the captains deserved more pay. They said the captains must not pass over the Board-and the Mayor in the attempt to get an act of the Legislature passed for their own benefit. Such action would be most discreditable. The captains must remember that they were the servants of the public, and if the Legislature was asked to increase their pay such a request must come from efficials representing the public. One Commissioner spoke of the rumors about money and said that if any money was raised for any lobbying purposes, in case a bill to increase the salaries was introduced at Albany, he would do his utinost to have the bill defeated. The captains promised to abandon all the plans that they had formed on the subject and leave the matter to the Board.

A TALK WITH MR. O'BRIEN—JOHN E. KAUGHRAN TO RETIRK WITH A FORTUNE.

Miles M. O'Brien, the assignee of Thomas F. Kaughran & Co., Nos. 809 and 8:1 Broadway, was unable yesterday to give any statement regarding the assets and habilities of the suspended firm. The inventory of the stock was not completed last night. Speaking of the suspension Mr. O'Brien said:

"There never was an honester failure in the world than that of Mr. Kaughran yesterday. He began business a year ago last May with \$50,000 in clean cash and he hasn't a dollar of it left. Had he wished, the result might have been otherwise, for he could have bought might have been otherwise, for he could have bought might have been otherwise, for he could have bought what caused his failure! There are several reasons for it, but the principal cause was the unseasonable wrather which we have had during the last two months. If the weather had been as cold as it has been for two days I think he would have pulled through all right. Several reports have been spread abroad that Mr. Kaughran was dissipated. These are both faise and malicious and without the slightest foundation."

The report that John E. Kaughran, senior pariner of the dry-goods firm of John E. Kaughran & Co., Broadway and Ninth-st., was going to retire from business was confirmed at the store yesterday. Mr. Kaughran expects to sell out to Daniel Fox, who is connected with Le Bouthler Brothers of Twenty-third-st. The transfer will not take place until an inventory of the stock has been taken. Mr. Fox has made a deposit of \$7,000 and there is little doubt that the sale will take place. Mr. Kaughran will not take place until an inventory of the stock has been taken. GENERAL BROWNELL'S RESIGNATION.

The news of General Brownell's resignation of the command of the Fourth Erigade of the Second Division, N. G. S. N. Y. I was reserved with much surprise in Brookiyn yesterday, as it was wholly unexpected outside of a limited circle of friends. It is said that the resignation was due to the fact that General Brownell expects to be appointed to an office in the State Ordnance Department at the Aremai in this city, with a sainty, where he will rank as colonel and his superior will be a brigadier-general. He has commanded the Fourth Brigade for about two years, and formerly was colonel of the 47th Regiment in Brooklyn.

We well remember an incident in point of Evangelist Hammond's labors in a New-York city. As usual he made a deep impression on female sinners, and the way the bounest-wearers ran after him was the cause of some little unholy mirth. One lasty disgusted with her own sex on this account, on happening to run across a friend, one of the Hammond-adminition cotoris, taxed her with being actually in love with the revivalist. WAS THE BARK SCUTTLED ?

THE THURBERS SUING FOR INSURANCE. TESTIMONY ABOUT THE LOSS OF THE L. E. CANN

OFF HATTERAS. A case which has been on trial two or three weeks before Judge Coxe in the United States Circuit Court was given to the jury yesterday. F. B. Thurber & Co., the predecessors of the present firm, sued the Insurance Company of North America, of Philadelphia, for \$55,000 and interest, amounting in all to about \$71,000. The company insured the British bark L. E. Cann and the eargo which was consigned to the Thurbers. The cargo was supposed to consist of hides, vanilla beans and other products sent from Vera Cruz, a part of it by A. F. Grannis to the New-York firm. The vessel was abandoned after an apparent shipwreck off

Hatterns in April, 1882. Some tugs found the vessel still floating about and took her in tow. Auger holes, it was alleged, were discovered in the bottom of the vessel. In the hold were boxes filled with dirt and 180 bales also said to contain only dirt. The charge was made that the vessel had been scuttled. Captain Brooks, the master of the vessel, was called as a witness and testifled that he had made an agreement with Mr. Grannis by which he was to receive \$6,500 on the understanding that he was to scuttle the vessel, and that he carried out his agreement. It appeared that he had told various stories about his actions. In support of his testimony there was a written agreement on the margin of the charter party by which pparently Grannis agreed to give the captain \$6,500, the last payment to be when proof of loss was presented. Experts were called on beth shies to support or antagonize the theory that the signature to this agreement and to another were forgeries. W. W. Chandler was the counsel for the Thurbers and Joseph H. Choatee and Treadwell Cleveland for the defendants. Judge Coxe directed the jury, after they had been absent several hours, to bring in a scaled verdict to-day.

CROWLEY'S PUNISHMENT JUST.

The appeal of David II. Crowley, ex-sergeant of police, who was sentenced to the State Prison for seventeen years and six months, has been decided ad-versely to him by the General Term of the Supreme Court. Justice Brady wrote the opinion. He says the complaint that two of the juroes were biassed is groundless, as each distinctly stated that, notwithstanding an opinion or impression entertained in reference to the accusation to be investigated, he could, he believed, render a verdict without being influenced in any way by the opinion that was formed. The Recorder laid down the law fully, explicitly and accurately. The verdict was not affected by public clamor. In conclusion the opinion says: "Assuming that the verdict of the jury is correct, which we see no reason to question, the appellant has been guity of an atrocious crime, one which he could the more readily accomplish by exciting fear and apprehension than a person not connected with the police, and therefore his punishment on conviction was justly severe. Clothed with authority and invested with high obligations and responsibilities it was his duty to protect the prosecutive, and not to seek her destruction. It was a duty he owed to her, to the community, to the department to which he belonged, and to himself. He abandoned all, selecting for his victum a youthful matten of innocence and respectability, who, although in the humbler walks of life, was entitled to all the protection that could be furnished any person in any other sphere. The verdict was in all respects just, the judgment that followed it was proper and exemplary, and this court will not interfere with it in any way." render a verdict without being influenced

VICTORY FOR THE TITLE COMPANY. The applications of the Title Guarantee and Trust Company for a mandamus compelling Register Reilly to permit it to make copies of the records in his office and for an injunction to restrate the Register from nterfering with the company's employes in making copies, having been refused, an appeal was taken by the company to the General Term of the Supreme Court. This was decided yestering, Justice Daniels delivering This was decided yesterlay, Justice Daniels delivering the opinion of the court. He holds that under the laws of 1882 and 1883 the company is entitled to an examination of the Records under reasonable regulations and restrictions. He says the company is entitled to a mandamus requiring the Register to nermit its employes to examine them and to make extracts and codes, and to allow this to be done by such a number of these employes in the exercise of his imbiassed judgment and discretion can be permitted at the same their operations in the office, without depriving other persons equally entitled to make searches of titles of the colvenient opportunity of doing so. He refuses the injunction, holding that the management is the more appropriate relief. Justice Brady concurs in this opinion, saving that the law must be compiled with, althous his effect is "to create Austice Remained Register's office in the City of New-York."

Pressing Judge Davis concurs in the propriety of granting a management, but hous that the injunction should be granted also. He says it is shown that the case "is one which justly taxes upon the respondent a series of acts not only evasive of his duties, out our-posely violative of the rights of the appellant." He declares that the case not only shows the right of the plantiff to a writ restraining the manifest abuse of affilial power on the part of the Register, but shows an itematiff in position to pusition see almost, in the most summary way known to the law.

United States Treasurer Jordan, who is in charge of the Sub-Treasury in this city, saids yesterday that he was disappointed by the delay in naming a suc-cessor to Thomas C. Acton. "I hear from Washington," said he, " that Secretary Manning has not been well for a few days and the absence of his assistants, Fairchild and Smith, has probably caused him trouble enough to

and Smith, has provably caused him trouble enough to prevent his thinking of this office. I hope to be relieved very soon."

It is understood that Charles J. Canda has been sug-gested for the place by persons who know him as a business man. He was one of the leading directors of the New-Yark Omario and Western Hallway Company

at the time when Mr. Jordan was treasurer of the company and an associate in the directory.

SEQUEL OF THE PATERSON TRAGEDY.

NEWS FROM THE SUBURBS.

SEQUEL OF THE PATERSON TRAGEDY.

The step-children of George Holford, who killed his wife and then himself at No. 274 Main-st., Paterson, N. J., on Thursday, declared late that night, after the autorsy had been held, that the body of their mother's murderer should not rost in her home. They ordered Holford's body to be removed, and Coroner Hopson put it in charge of Undertaker John E. Smith, next door. Holford's own children were too young to have daything to say. It was at first thought that Holford would have a pauper's burial, but it was discovered that a State law makes an appropriation of \$35 for the funeral expenses of any veteran of the Uniou Army in the Rebellion. Comrade William J. Buckley, of Fatragut Post, G. A. E., decided that no matter what the crimes of the dead man had been, a soldier of the Union should be buried decently. He telegraphed to members of Phil Kearney Post, of Nowark, of which Holford was a member, and received an answer which will prevent the dead veteran from being buried like a pauper. The autopsy yesterday showed that Mrs. Holford's death had been caused by only one of the builets fired at her head. This builet had entered the brain and the other had been flattened on the skull. Holford's death had resulted from the one ball which he fired into his forchead. It was learned that Holford was jealous of his wife and that his suspicious in his drunken its centered upon a boarder with Mrs. Holford. It did not appear that there was the slightest foundation for his jealousy. Mrs. Holford was fifty-three years old and was spoken of by all who knew her as a modest, hardworking and estimable mother and a forgiving wife. Holford lived up to a week ago at No. 45 Commercest. Newark, and worked for six month for a Mrs. Warren, a provision dealer, in Centre Market. The day that he disappeared from Newark he robbed Mrs. Warren of \$40 and a warrant was issued for his arrest. A few years ago he was arrested on a charge of embezzling \$75, but his employer declined to prosecute him and he was role
